- Each problem carries pre-announced marks. Partial marks may be awarded for partially correct reasoning.
- Teams must show their working where asked; answers without working may not receive full marks.

Final Round – Rapid Forge (30 points)

- A live, head-to-head buzzer-style round among the finalist teams.
- Correct answers earn points; wrong answers may carry negative marking as announced.
- The team with the highest total score across all rounds is declared the winner.
