NIT ARUNACHAL PRADESH ADDOVEDI ENTER THE ARENA

CODATHON

PROGRAMMING & CS COMPETITION • RULEBOOK

ORGANISED BY

Coding Pundit

Department of Computer Science and Engineering

ADDOVEDI 2026 • Theme: Enter the Arena

1. Event Overview

CODATHON is the programming and Computer Science competition of ADDOVEDI 2026, organised by Coding Pundit. It runs as one continuous session in two stages: a 20-question Computer Science Fundamentals Assessment, followed immediately by a Coding Challenge. Participants are ranked on their combined performance across both stages. CODATHON is an individual event (one member per participant) with a registration fee of ₹50.

Event Coordinator: **Riya Yadav**. Participants must **bring their own laptop**.

WHAT THE COMPETITION TESTS

AREA	WHAT PARTICIPANTS DEMONSTRATE
CS fundamentals	Conceptual understanding across programming, DSA, OS, DBMS, networks, OOP and software engineering
Logical reasoning	Aptitude, analytical thinking and sound logic under time pressure
Problem solving	Designing correct algorithms for problems of increasing difficulty
Programming	Writing clean, working code that passes every test case
Optimisation	Efficient solutions in time and space complexity

2. Participation and Registration

₹50	20	2
REGISTRATION FEE	MCQ QUESTIONS	STAGES

2.1 The registration fee is **₹50 per participant**.

2.2 This is an **individual event**.

2.3 Eligibility and the registration process: **To be announced**.

2.4 A participant may register only once. In case of multiple registrations, only the first will be considered.

2.5 Participants must provide valid and accurate registration details.

2.6 Participants must carry a valid ID card.

2.7 **Participants must bring their own laptop** with a charger. The organisers will not provide laptops.

2.8 Participants must report according to the schedule announced by the organisers.

3. Event Format

CODATHON is a two-stage challenge held in one continuous session with no scheduled break. All participants take the MCQ Assessment first and move straight into the Coding Challenge. Final ranking is based on the combined score of both stages.

STAGE	TASK	WHAT IS TESTED
Stage 1	Computer Science Fundamentals Assessment (20 MCQs)	Concepts, logic, analytical thinking
Stage 2	Coding Challenge (problems of increasing difficulty)	Problem solving, programming, optimisation

4. Event Structure

1

STAGE 1 — CS FUNDAMENTALS ASSESSMENT

MCQ round

20 simple multiple-choice questions on basic computer fundamentals. If you know the basics, you can do well. No fear, just pick the best answer and enjoy it.

2

STAGE 2 — CODING CHALLENGE

Programming round

Starts right after Stage 1. Problems begin easy and get harder step by step, so everyone can start with something they know. Solve at your own pace and just give it a try. Everyone is welcome.

5. Session Flow and Progression

5.1 All participants begin with Stage 1 (MCQ Assessment) at the same time.

5.2 Stage 2 begins immediately after Stage 1, with no scheduled break.

5.3 Every participant takes part in both stages. Both contribute to the final score.

5.4 Stage-wise weightage, marks per question and negative marking (if any): **To be announced**.

6. Time and Submission

6.1 Each stage has a fixed time limit, announced before it begins. Durations: **To be announced**.

6.2 Problems and instructions are released at the start of each stage.

6.3 Submissions after the time limit will not be evaluated unless the coordinators announce otherwise.

6.4 Coding is done on participants' own laptops on the platform announced by the organisers. Platform: **To be announced**.

6.5 Official start and submission times recorded by the coordinators will be used for all timing decisions.

6.6 Report any technical problem to a coordinator immediately.

7. Evaluation and Scoring

Coding solutions are evaluated automatically against test cases. The combined score of Stage 1 and Stage 2 decides the ranking.

STAGE	CRITERIA	WEIGHT
Stage 1 · MCQ	Correct answers across 20 objective questions	**To be announced**
Stage 2 · Coding	Correctness + algorithmic approach + time and space complexity + test cases passed	**To be announced**

The organisers may finalise the detailed judging checklist before the event.

8. Final Ranking and Tie-Break

Final ranking is based on the combined total score. If participants have equal scores, ties are resolved in the order below, then by the organisers' final decision.

COMPARE FIRST	→	COMPARE NEXT	→	COMPARE NEXT
Stage 2 score		**Stage 1 score**		**Earlier Stage 2 finish**

9. Fair-Play and General Rules

- **9.1** Participants must work on their own laptops. Do not discuss questions or solutions with anyone during the session.
- **9.2** Do not use mobile phones, smartwatches, notes, books or unauthorised devices unless the organisers allow them.
- **9.3** Do not use AI tools, code-generation tools or online solution sources unless the organisers explicitly permit them.
- **9.4** Do not interfere with the evaluation system, other participants' laptops, files or accounts, or the network.
- **9.5** Participants must follow the instructions of the coordinators throughout the event.
- **9.6** The organisers reserve the right to modify or clarify the rules if required. Any change will be announced to all participants before implementation.
- **9.7** Permitted resources, device policy and internet access: **To be announced**.

10. Disqualification

A participant may be disqualified for any of the following:

- **10.1** Plagiarism, copying, or sharing questions, answers or code.
- **10.2** Using unauthorised external help, pre-written solutions or hidden resources.
- **10.3** Unauthorised access to, or attacks on, other systems, the judging platform or test cases.
- **10.4** Manipulating the evaluation or exploiting platform errors instead of reporting them.
- **10.5** Continuing to work after time is called, or any other misconduct during the event.

11. Prize Pool

₹13,000+ (including goodies)

- **11.1** The prize pool will be distributed among the winners.
- **11.2** Position-wise prize distribution will be announced by the organisers.

12. Details to Be Announced

The following are not yet confirmed. The organisers will announce them before the event.

DETAIL	STATUS
Date, venue and clock time for each stage	To be announced
Eligibility and registration process	To be announced
Duration of Stage 1 and Stage 2	To be announced
Marks per question, negative marking and stage weights	To be announced
Number of coding problems and coding platform	To be announced
Permitted resources, device policy and internet access	To be announced
Position-wise prize distribution	To be announced

13. Final Authority

13.1 The decision of the judges / organising committee regarding scoring, ranking and disqualification will be final and binding.

13.2 Any situation not explicitly covered in this rulebook will be decided by the organising committee.

13.3 Any rule modification will be communicated to participants before implementation.
